

Guide to Front Entrance Doors and Security

Glass storm doors are OK for front entrances. We ask that the color of the screen door match the color of your home's shutters. Please ask the HOA Board if you are uncertain or have questions.

Wrought iron entrance doors are OK to install at the front entrance of your home. These are not screen doors. Your old front entry door must be completely replaced with this type of door. Please follow the Architectural Request process with the HOA Board **BEFORE** you order your door.

No security barred screen doors of any kind or material are permitted to be installed at the front entrance of your home. Only the rear and side entry points are acceptable for installation.

This is a fined violation of up to \$750.00 per month.
